1 COMMITTEE STARTING POINT

With the completion of a hundred days of the Trump Administration in office, civil unrest is constantly at a peak high. In order to curb dissent, the President has raised the alarm over a terror threat, with an explosion in Pittsburgh, killing two and injuring ten. The citizens are unaware of the provenance of this deed and terror has spread across the country compelling large sections to demand appropriate action.

3 LETTER FROM THE PRESIDENT

Honourable Members,

You have all been nominated by me to represent the people of this great country. The American people chose me, and in my choosing you, they chose you too. The past 100 days have been tumultuous, the people of this country have faced many hardships, the hardest of them being a devastating attack in Pittsburgh by whom the intelligence agencies believe to be ISIS. The fight we must fight will be the most important one the American people have fought since the second world war. Our economy has been laid siege to by the Chinese, and our people are suffering, and our people are splintered. You all took an oath to serve the people of this great country, whether they stood with you or against you. It is up to us, to take this country forward and make America great again.

It is my great privilege to invite you to the American Presidential Cabinet, and I hope you can deliver in these times of duress.

Let's Make America Great Again,

A handwritten signature in black ink, appearing to read 'Donald J. Trump', with a stylized, jagged flourish at the end.

Donald J Trump

President of the United States

4 POSITION OF CABINET IN US GOVERNMENT

Established in Article II, Section 2 of the Constitution, the Cabinet's role is to advise the President on any subject he may require relating to the duties of each member's respective office.

The cabinet is the main executive organ of the federal government and addresses a wide range of issues. It traditionally consists of the heads of the various executive departments of the government. They are nominated by the president and have to be approved by a simple majority in the Senate. The members of the Cabinet hold office during the pleasure of the President.

As members of the cabinet you are expected to take viable and prompt actions to overcome the crisis that the country is turmoiled in.

5 THE 2016 PRESIDENTIAL ELECTION

The historic 2016 election was one fought in the most unconventional manner by the Republican candidate Donald Trump. From outrageous claims stating that he could shoot a person on the street and his approval rating would rise irrespective, to openly announcing that he would order the mass deportation of over 11 million illegal immigrants and ban the entry for Muslims to the country, traditional rules applied to other candidates did not seem to apply to Trump.

He went from strength to strength as time wound on, gaining more and more support as his anti-establishment rhetoric, which went across party lines as he viciously attacked senior members of both parties, gained wider support from the American people, especially blue collar White American workers. What made Trump a unique candidate, and is often cited as the reason for his win was his willingness to be politically incorrect. Many voters viewed this as a breath of fresh air, and it complimented his anti-establishment rhetoric.

Another key element of his win was his opponent. In a year when two anti-establishment candidates in Bernie Sanders and Donald Trump, it was Hillary Clinton, a senior member of the Democratic Party who won the candidacy for the Democratic Party, amid controversy. Viewed widely as untrustworthy while also having to deal with the new disadvantage of

being everything Trump criticized in his campaign, she lost the electoral college as Trump won 304 electoral votes to her own 227, despite winning the popular vote by 2.8 million votes.

Thus, a solid yet unconventional campaign coupled with a widely unpopular and mistrusted election opponent helped Trump gain wins in key states and win the election by the huge margin we saw.
